Compost Shredder-Grinders

Gravelly mounted
Gravelly powered
Gravelly approved

MODEL No. 9-G—For Gravelly Garden Tractors

Mounts to all Gravelly riding tractors; series 424 and 810, gear drive. By using our shredder-grinder you can process leaves, flower stalks, corn stalks, manure, garbage, weed vines, hedge cuttings, tree prunings into compost or top soil mulch. Truly a favorite of gardeners everywhere with its excellent history of quality performance. The hardened steel hammers will pulverize occasional rocks entering the feed hopper. Save yourself time and unnecessary annoyance, when using this compost shredder to pulverize materials which tend to keep your yard unsightly.

Each shredder shipped with one screen having 1" diameter holes. Other screens available, for special purpose grinding.

The balanced rotor has 24 case hardened free swinging hammers, each with four cutting edges. Heavy duty external bearings. All parts required for attaching to the Gravelly are included, except for tractor part 15840E1.

MODEL 9-P Shredder 5 h.p. Self-Powered

The Mighty Mac 9-GC is available for mounting to all Gravelly two wheel Convertible tractors. Requires quick hitch kit 11898E1, available from your Gravelly dealer. The 9-GC has the same quality features and rugged versatility as the 9-G or self powered 9-P. Twenty-four (24) free swinging hammers do the grinding or shredding.

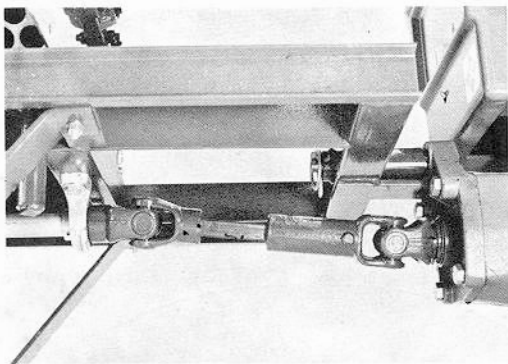

MODEL 9-GC (Convertible)

Model 9-GC—grind or shred corn stalks, leaves, vines, manure, straw, newspaper and more.

The front end of the shredder frame is supported by steel skids. The shredder attaches to your convertible quickly and easily, supported on a taper pin and driven by a universal jointed PTO shaft.

The 9-GC offers you an economical heavy duty shredder grinder, and provides you with more purposes for the tractor. Like your tractor, the Mighty Mac is built to last.

PTO shaft drive from tractor to shredder.
