

# NEW GRAVELY

## STEERING SULKY

## New Ease, Precision, Maneuverability With **GRAVELY** Gang Mowers, Steering Sulky!

**Steering is easy** because you drive your Gravely like you drive your car. One-finger steering, even with the heavy Gang Units! It is a totally new experience in mowing. Even a child can handle the Gang Mower--easily!

**Precision Work** is done---instantly---with a slight movement of your hand. Steering Wheel makes a complete cycle from extreme left to extreme right with only 5-6th turn. Precise, instant control means trimming operations are done faster, better--with almost no effort.

**Amazingly Maneuverable!** You mow a circle 18 inches in diameter . . . change direction instantly with a quick flip of the wheel. Forward and Reverse, operated conveniently with one hand, effortless steering with the other . . . no wonder the Gang Mower and Steering Sulky combination gets more done with less work!

**Less Operator Fatigue** pays off in increased mowing production. Now, truly, the Gravely does all the work. All you do is guide the equipment--it's like power steering! Riding comfortably on the Sulky, with work taken out of handling the equipment, there is less need or desire for rest periods . . . more work gets done faster with less effort!

**Safety Engineered -- Safe on Steep Slopes!** You are fixed in relation to the Tractor. Swivel Action of Sulky Wheels follow ground contour while you stay with the Tractor motion. The Gravely's low center of gravity, and the Safety-engineered Sulky make it impossible to turn over, even on steep slopes!

You mow relaxed, comfortably, safely--even on slopes and terraces! Let us show you this new experience in mowing ease and comfort--right away!
